

Approved Case Source Hubs for Guided Case Conversations

Dr. Alicia M. Rich

You are encouraged (but not required) to select cases from the sources below. These sources provide **real, publicly documented conservation actions** with clearly stated goals, constraints, and outcomes.

You do **not** need to ask for approval if your case comes from one of these hubs.

Zoo & Ex Situ–Linked Conservation Programs

AZA SAFE (Saving Animals From Extinction) Species Programs

- Species action plans and program summaries
- Strong alignment with One Plan thinking
- Clear goals, partners, and constraints

Zoo-Based Conservation Program Pages

- Many accredited zoos publish conservation initiative summaries
- Often include education, fieldwork, and captive management components

Government Recovery & Management Plans

U.S. Fish & Wildlife Service (USFWS)

- Species recovery plans
- Critical habitat designations
- Reintroduction and management actions

State Wildlife Agency Conservation Programs

- Species of Greatest Conservation Need (SGCN) plans
- Habitat restoration or corridor projects

International & NGO Conservation Initiatives

IUCN Red List & Species Action Plans

- Threat prioritization
- Conservation actions and research needs

Major Conservation NGOs

- World Wildlife Fund (WWF)
- Wildlife Conservation Society (WCS)
- Conservation International (CI)

Habitat Protection, Restoration & Connectivity Projects

Protected Area Creation or Expansion

- National parks, reserves, marine protected areas

Habitat Restoration Projects

- Wetlands, forests, coral reefs

Connectivity & Corridor Initiatives

- Wildlife crossings
- Landscape-scale planning

Community-Based & Human–Wildlife Conflict Projects

Community-Based Conservation Programs

- Co-management agreements
- Indigenous-led conservation initiatives

Human–Wildlife Conflict Mitigation

- Compensation programs
- Non-lethal deterrents
- Land-use planning

Optional: Primary Literature (Use Selectively)

Primary research articles may be used if they:

- directly inform a management decision or action
- include explicit discussion of conservation outcomes

Primary literature is **not required** and should not be the sole source.
