The Conservation Decision

What action was taken or proposed?

[Type your response here]

Who made the decision, and what problem was it addressing?

[Type your response here]

Threats & Metrics

What threats was the project addressing?

[Type your response here]

How were these threats defined or prioritized?

[Type your response here]

What indicators or metrics were used to assess progress or success?

[Type your response here]

What was difficult or impossible to measure?

[Type your response here]

SMART Goals Evaluation

Identify one major project goal and evaluate it:

Specific: [Your Assessment]

Measurable: [Your Assessment]

Achievable: [Your Assessment]

Relevant: [Your Assessment]

Time-bound: [Your Assessment]

Where did the goal fall short of being fully SMART, if applicable?

[Type your response here]

Ethical & Social Dimensions

Who benefited most from this project?

[Type your response here]

Who bore costs or risks?

[Type your response here]

What ethical or social tradeoffs were involved?

[Type your response here]

Guided Discussion Questions

Quantification of threats or success:

[Type your discussion prompt/question here]

Application of course concept:

[Type your discussion prompt/question here]

Ethical or social consideration:
