

Poster Project Rubric

Human Health and the Environment

Thursday, December 11, 2025

Summary

Your posters will be evaluated during class on **Thursday, December 11, 2025**. You may assemble a poster any way you wish, or print a poster using the library's services.

If you worked in a group, you should add all members to a ***Poster Group*** on canvas. Then, only one member needs to upload a digital copy of your submission. If you assemble the poster by hand, you should take a photograph and submit the digital image **Submit the digital versions before 4:00 PM on Thursday, December 11, 2025**.

Assessment Totals

Category	Possible
Content and Understanding	
Depth and Relevance	15
Call to Action	5
Critical Thinking	
Originality and Synthesis	10
Audience Engagement	5
Design and Impact	
Visual Appeal and Organization	10
Overall Quality	5
Total	50

Content and Understanding (15 + 5 = 20 points)

Depth and Relevance (15 points)

Does this poster...

- ☐ demonstrate a strong understanding of the topic by clearly connecting human health and environmental issues using multidisciplinary perspectives?
- ☐ explain technical pathways accurately?
- ☐ integrate key themes from the course, such as vulnerabilities, environmental determinants, and physiological impact?

Score	Criteria
9-10	Exceptional understanding and integration of course material; technical pathways are clear and insightful.
7-8	Solid understanding with good integration, though some minor connections or details could be stronger.
5-6	Basic understanding with limited connections or inaccuracies in technical explanations.
0-4	Minimal or no understanding demonstrated; weak or irrelevant connections.

Call to Action (5 points)

Does this poster...

- ☐ include a clear and actionable message tied directly to the issue?
- ☐ present a call to action that is realistic, impactful, and well-supported by the poster content?

Score	Criteria
5	Highly actionable, relevant, and strongly connected to the issue.
3-4	Clear and relevant, but could be more specific or impactful.
0-2	Vague, unrealistic, or missing call to action.

Critical Thinking (10 + 5 = 15 points)

Originality and Synthesis (10 points)

Does this poster...

- ☐ use creative approaches to presenting the issue and engaging the audience?
- ☐ demonstrate critical thinking by analyzing vulnerabilities, systemic challenges, and trade-offs?
- ☐ explore evidence-based solutions or connections to inspire meaningful action?

Score	Criteria
10	Exceptionally creative and thoughtful, with deep, nuanced analysis.
7-9	Strong creativity and analysis, though some aspects could be more polished or in-depth.
4-6	Somewhat creative or analytical, but largely conventional or surface-level.
0-3	Minimal creativity or critical thinking; lacks depth.

Audience Engagement (5 points)

Does this poster...

- ☐ identify a target audience (public or stakeholders), with clear, accessible language?
- ☐ avoid unnecessary jargon?
- ☐ effectively balance technical details with simplicity?

Score	Criteria
5	Highly engaging and audience-appropriate, balancing complexity and clarity.
3-4	Clear and relevant, though engagement could be stronger.
0-2	Ineffective or inaccessible to the intended audience.

Design and Impact (5 + 5 = 10 points)

Visual Appeal and Organization (5 points)

Does this poster...

- ☐ appear visually engaging with a professional and cohesive layout?
- ☐ contain well-chosen graphics, colors, and text that enhance readability and understanding?

Score	Criteria
5	Outstanding design that enhances the message.
3-4	Solid design, with minor areas for improvement in layout or visuals.
0-2	Poor design; visuals detract from content.

Overall Quality (5 points)

Does this poster...

- ☐ leave a lasting impression and inspire action?
- ☐ align with the assignment's goals by effectively linking human health and the environment?

Score	Criteria
5	Highly impactful and aligned with the assignment's goals.
3-4	Somewhat impactful but could be more memorable or inspiring.
0-2	Minimal impact or alignment with goals.
