

Fishing for Sustainability — Supply Checklist

Class Info

- **Class size:** 8 students
- **Activity duration:** ~40–50 minutes total (3 rounds + debrief)

Core Materials

Item	Quantity	Notes
Large bowl (lake)	1	Holds shared “fish” population.
Small cups (boats)	8	One per student.
Tokens (“fish”: candies/beans/beads)	40–50	Start each round with 30 in the bowl; extras cover loss/spills.
Scratch paper / notecards	8	Students record private decisions.
Pens/pencils	8	For decisions + reflections.
Printed student handouts	32	4 per student: Round 1, Round 2, Round 3, Final Debrief.
Instructor master copy	1	To track counts and timings.

Optional Visualization / Tools

Item	Quantity	Notes
Whiteboard or notepad	1	Show totals & reproduction each round.
Dry-erase markers	2–3	Differentiate catch vs. reproduction.
Calculator (or phone)	1	Quick doubling checks.

Suggested “Fish” Tokens

Type	Pros	Cons
Small candies (Skittles/M&Ms)	Engaging; edible reward afterward.	Tempting; bring extras.
Dried beans/pasta	Cheap; reusable; low distraction.	Less colorful.
Plastic tokens/beads	Durable; easy to count/store.	Requires storage afterward.

Quick Setup Notes

1. **Pre-class:** Count **30 fish** into the bowl; place 8 boats; keep extra tokens handy.
2. **Round flow:**
 - **R1 (Open Access):** No discussion. Start with 30.
 - **R2 (Fixed Quota):** Reset to 30; allow **2 min** to agree on a class quota.
 - **R3 (Fixed Effort):** Reset to 30; allow **2 min** to agree on a per-person limit.
3. **Between rounds:** Count remaining fish, **double** (cap at 30). Record on board.
4. **End:** Collect all four student sheets for participation credit; distribute candies if desired.
